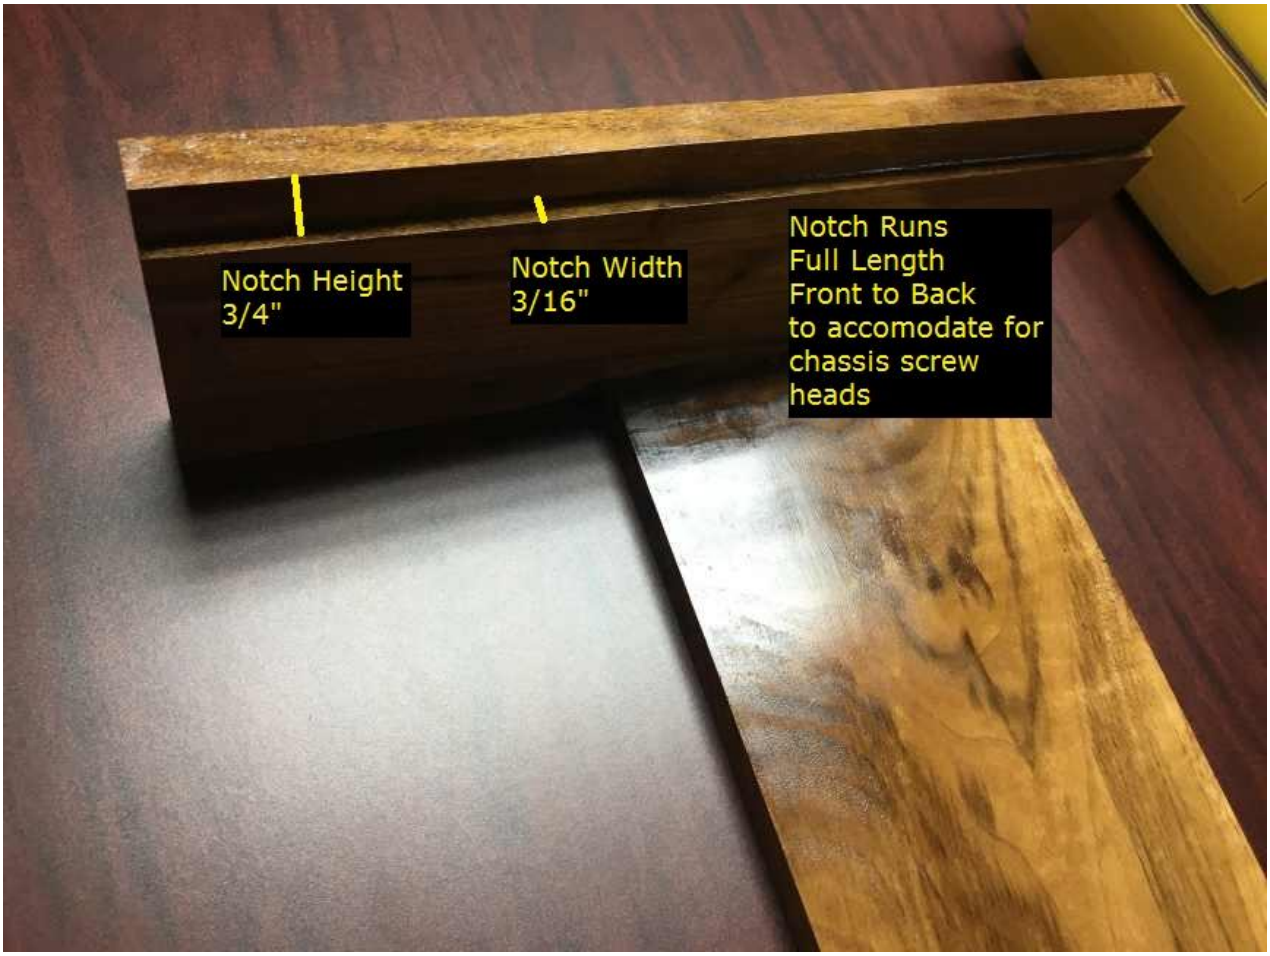
AR SP3 Wooden Cover Dimensions

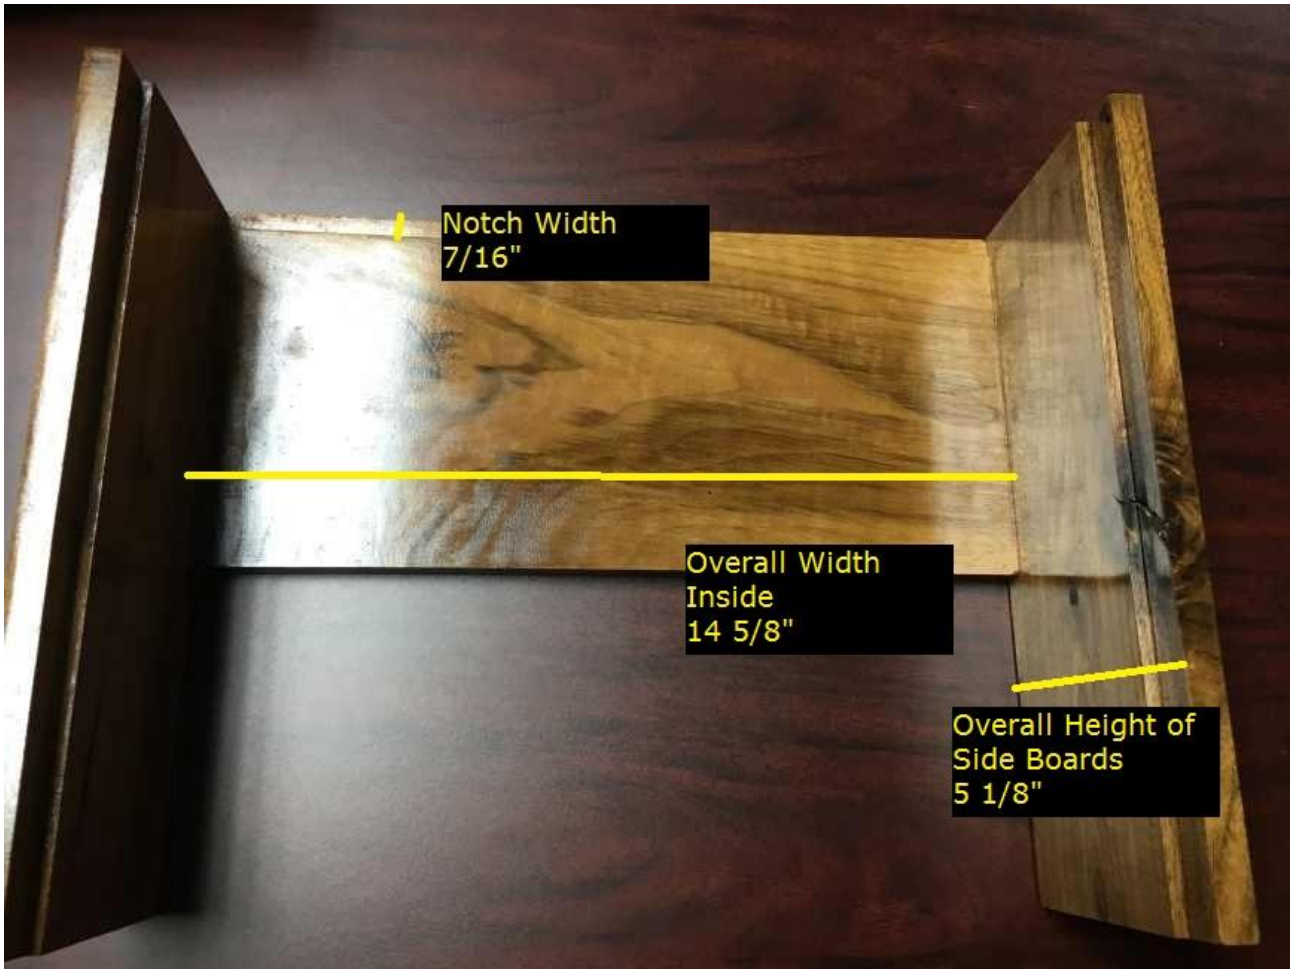
Blueglow Electronics

www.blueglow.net

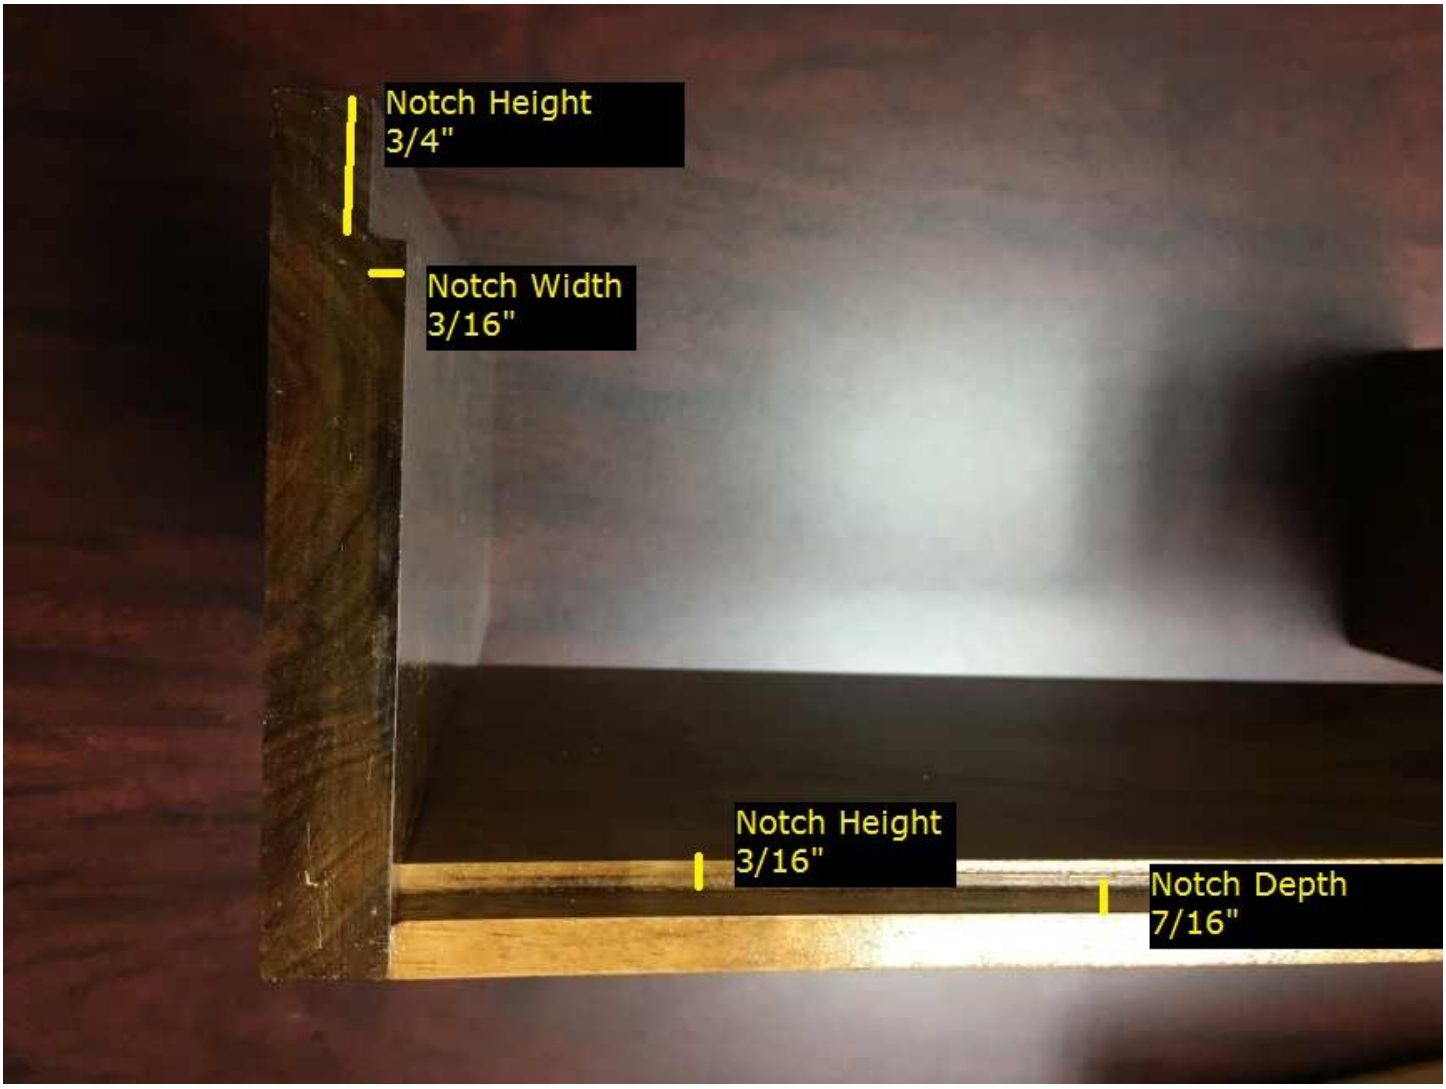
For someone wanting to make their own AR SP3 cover, here are the dimensions. Note that while it appears to be 3 simple boards glued together, both the top and side pieces have recessed grooves to avoid hitting the chassis screws. Mine was made of Walnut and then oil stained and coated with polyurethane.



Notch Height
3/4"
Notch Width
3/16"
Notch Runs
Full Length
Front to Back
to accomodate for
chassis screw
heads



Notch Width
7/16"
Overall Width
Inside
14 5/8"
Overall Height of
Side Boards
5 1/8"



Hope this help,
Mark
